The European Investment Plan - A new Marshall Plan for the EU?

The European continent is mired in **recession**, low-or-non-existent growth, low confidence and record levels of unemployment. The combination of an ongoing economic and financial crisis and a failure by European governments to adapt to enhanced global competitiveness has left the **EU straggling** behind its competitors.

The Dods EU monitoring team has produced a briefing document **analysing** the **present** and the **future** of the new European Investment Plan.

This is the first of four briefings put together by Dods Monitoring as supporting partner of the [European Business Summit 2015](#) [1].

Fill out the form below to receive the document.
